ADVANCED TELEVISION  
SYSTEMS COMMITTEE

# **ATSC Standard, A/344:2020 Corrigendum No. 1**

---

Doc. A/344:2020 Corr. No 1  
29 April 2020

**Advanced Television Systems Committee**  
1776 K Street, N.W.  
Washington, D.C. 20006  
202-872-9160

The Advanced Television Systems Committee, Inc., is an international, non-profit organization developing voluntary standards and recommended practices for digital television. ATSC member organizations represent the broadcast, broadcast equipment, motion picture, consumer electronics, computer, cable, satellite, and semiconductor industries. ATSC also develops digital television implementation strategies and supports educational activities on ATSC standards. ATSC was formed in 1983 by the member organizations of the Joint Committee on Inter-society Coordination (JCIC): the Electronic Industries Association (EIA), the Institute of Electrical and Electronic Engineers (IEEE), the National Association of Broadcasters (NAB), the National Cable Telecommunications Association (NCTA), and the Society of Motion Picture and Television Engineers (SMPTE). For more information visit [www.atsc.org](http://www.atsc.org).

*Note:* The user's attention is called to the possibility that compliance with this standard may require use of an invention covered by patent rights. By publication of this standard, no position is taken with respect to the validity of this claim or of any patent rights in connection therewith. One or more patent holders have, however, filed a statement regarding the terms on which such patent holder(s) may be willing to grant a license under these rights to individuals or entities desiring to obtain such a license. Details may be obtained from the ATSC Secretary and the patent holder.

### Revision History

Version	Date
A/344:2020 Corrigendum No. 1 approved	29 April 2020

## ATSC Standard, A/344:2020 Corrigendum No. 1

### 1. OVERVIEW

#### 1.1 Definition

A Corrigendum is generated to correct an error or ambiguity in an ATSC document introduced either in drafting or publication of the document that could lead to incorrect or unsafe application of the document. Correction of a technical defect shall in no way cause a change in functionality. Corrigenda shall be published as attachments to the original ATSC document. Distribution by ATSC of existing documents shall include any approved Corrigenda.

#### 1.2 Scope

This document describes the necessary update to the A/344:2020 reference of A/331 from the 2019 edition to the 2020 edition.

#### 1.3 Rationale for Changes

The changes described in this document are being proposed because with the volume of other changes prepared and balloted for A/344, the reference to A/331 update was simply overlooked. Further, having A/300:2020 refer to A/331:2020 and A/344:2020 while A/344:2020 refers to A/331:2019 may lead to significant confusion among implementers.

### 2. LIST OF CHANGES

Change instructions are given below in *italics*. Unless otherwise noted, inserted text, tables, and drawings are shown in **blue**; deletions of existing text are shown in **red-strikeout**. The text “[ref]” indicates that a cross reference to a cited referenced document should be inserted.

#### 2.1 Normative References

[1] ATSC: “ATSC Standard: Signaling, Delivery, Synchronization, and Error Protection (A/331),” Doc. A/331:~~2020~~**2019**, Advanced Television Systems Committee, **16 January 2020**~~20 June 2019~~.

#### 2.2 Change Instructions

*Make the indicated change to Normative Reference [1] and publish a “roll-up” replacement for A/344:2020.*
